

Free Smoke Alarms on May 12, 2018

The American Red Cross, in combination with local Fire Departments, is working to reduce home fire related injuries and deaths.

How do we accomplish this?

- A team of registered Red Cross Volunteers or Staff members along with Firefighters will visit to talk with you about fire safety and will check your smoke alarms.
- If you need new smoke alarms, they will be installed for free.
- We will also be talking to you about the following:
 - Blocked or inaccessible exits such as windows and doors
 - Smoke and Carbon Monoxide detectors
 - Evacuation plans and proper meeting places
 - Fire extinguishers
 - Fire hazards such as:
 - Extension cords
 - Power strips
 - Cleaning away of any hazards

If you are interested in the service, please fill out the appointment form below and return it to the Red Cross or register online at www.preparewyoming.org/fire. The Red Cross and local Fire Departments will be installing free smoke alarms and fire prevention inspections in the Rock Springs, and Reliance Areas. This will be happening on Saturday, May 12th, 2018. Red Cross will contact you to set up an appointment time prior to May 12th.

This service is free for anyone in need
